Compliance Doesn't Have to be Boring! With Ronda Anderson, Joe Mayne, and Mary Govoni

Join us for an information-packed morning! Presented by three dynamic speakers – Ronda Anderson, Joe Mayne and Mary Govoni – their years of experience, vast knowledge on compliance topics, and great presentation skills offer you a compliance course you won't soon forget.

Ronda will kick-off the morning by "Elevating your Standard Precautions" of infection control, where you will learn efficiencies in dental instrument processing, sterilization flow and effective room turn around that will give you a safe, sustainable workflow and even some extra time. This course will not only meet your infection control requirements, it will EXCEED IT!

Joe will then "distill" waterline compliance down to one question – "Would You Drink It?" Many offices use the "out of sight – out of mind" mentality for patient use water, but all clinicians know CFU's can contaminate the AWS and the aerosols we work with. This dive into dental unit waterlines will provide actionable protocol steps you can take right away to answer the question – "Yes! I would drink it!"

Lastly, Mary will bring us the latest with "What's New with OSHA, CDC and Infection Prevention and Control" to meet your annual requirement for safety training – enabling participants to review their safety protocols and make necessary updates. Mary will also present "Is your Practice Truly HIPAA Compliant, and Your Patient Data Secure?" to meet your annual requirement for HIPAA training and review compliance requirements. Special emphasis will be placed on needed security risk assessments and implementation of security protocols to protect patient information from security breaches.

Course Objectives:

- Review CDC Guidelines for instrument processing
- Discover the best design for the sterilization area for maximum efficiency
- Learn about new technology for creating protocols in your practice
- Hear about latest health alerts around dental unit water lines
- Learn proper techniques for testing the water in your practice
- Learn how source water can affect your equipment and biofilm content
- Discuss documentation and training requirements for compliance with OSHA regulations
- Implement strategies for compliance with all federal, state, and local safety standards
- Assess the practices' compliance with CDC infection control guidelines
- Discuss the responsibilities that dental practices have under HIPAA rules
- Evaluate your practices' level of compliance with security protocols for patient information
- Implement strategies for enhancing security measures in the face of increasing security threats

Ronda Anderson

Ronda has been in the Dental Industry for over 30 years. During her time as a distributor representative she realized the need for education in her offices. They needed help resourcing information on the latest in Government Compliance and Infection Control. So, she became a trainer in OSHA and Infection Control to help her customers learn about proper guidelines and protocols. This became a passion that has now culminated with her current

employment at HuFriedy Group, where she consults with dental offices every day to help them become more efficient, compliant, and safe.

Joe Mayne

Joe entered the industry through the dental unit waterline segment. This experience showed how even small dental office water issues often point to more compliance issues. He has been recognized by HuFriedy Group as a go-to resource for waterline protocol and shares his expertise with professional associations and clinicians in his region of Kansas, Missouri, and Southern Illinois.

Mary Govoni, CDA, RDH, MBA

Mary Govoni brings 50+ years of experience in dentistry to the team. She is a certified Dental Assistant and a Registered Dental Hygienist, with experience in general and specialty practices, both clinically and as an administrator. Mary is a former dental assisting educator and was a partner in a successful dental staffing service.

For the past 30 years, Mary has focused on speaking and consulting with dental teams on infection prevention, OSHA compliance, HIPAA compliance, ergonomics, chairside efficiency, and team communication and development. Mary has published numerous articles in professional journals. She is a past president of the American Dental Assistants Association, serves on the Dimensions of Dental Hygiene's Corporate Council, is a member of the Speaking Consulting Network, and the Organization for Safety Asepsis and Prevention.

Mary's latest collaboration is with several of her colleagues, known as The Compliance Divas, presenting weekly podcasts on infection control, OSHA and HIPAA, and other regulatory topics affecting dentistry.

Date: May 10, 2024

Time: 8 a.m. to 3 p.m.

Location:

Stoney Creek Hotel Tulsa – Broken Arrow
200 W Albany St, Broken Arrow, OK 740122

Agenda:

- Breakfast & Registration - 8 a.m.
- Lecture - 9 a.m. to 12 p.m.
- Lunch – 12-1 p.m.
- Lecture – 1-3 p.m.
- Dismissal - 3 p.m.

Cost:

General Admission: \$129 per person
MPS/AIDA Members: \$89 per person

***Tuition includes breakfast and lunch.**
