# **SAFETY DATA SHEETS**

# This SDS packet was issued with item:

075182936

The safety data sheets (SDS) in this packet apply to the individual products listed below. Please refer to invoice for specific item number(s).

074574240 074575221 075170329 075170352 075170386 075171368 075171855 075172341 075172838 075173323 075173356 075173380 075173877 075173901 075173935 075174917 075177506 075178835 075179320 075179726 075179817 075182845 075182878 075182902 075182969 075183454 075183488 075183512

The safety data sheets (SDS) in this packet apply to one or more components included in the items listed below. Items listed below may require one or more SDS. Please refer to invoice for specific item number(s).

# Heraeus Kulzer

Mitsui Chemicals Group

#### SAFETY DATA SHEET

## SECTION 1: IDENTIFICATION

Product identifier used on the label:

Product Name:

Modern Pink, Shur Wax X-Hard, Shur Wax, Utility Wax, Boxing Wax Yellow Bite Wax, Periphery, Yellow Check Bite Wafers, Bite Block Hard, Bite Block Soft, Red Baseplate, Orthodontic Tray Wax, Thin-Ex, Lab Wax, Surgident® CoprWax™

Product Code:

50093112, 50093152, 50093252, 50093212, 50093312, 50093513, 50093553, 50093352, 50095492, 50095892, 50095592, 50095992, 50093712, 50094193, 50094293, 50094191, 50094291, 50094491, 50094591, 50094693, 50094793, 50095094, 50095194, 50093614, 50093654, 50092178, 50092189, 50094850

MSDS Manufacturer Number: M002

Other means of identification:

Paraffin Wax & Natural Occurring Wax Synonyms:

Recommended use of the chemical and restrictions on use:

Product Use/Restriction: Denture wax

Chemical manufacturer address and telephone number:

Heraeus Kulzer, LLC (Mitsui Chemicals Group) Manufacturer Name:

Address:

300 Heraeus Way South Bend, Indiana 46614-2517 USA

General Phone Number: 800-431-1785

Emergency phone number:

Emergency Phone Number: Chemtrec @ 1-800-424-9300

## SECTION 2 : HAZARD(S) IDENTIFICATION

## Classification of the chemical in accordance with A§1910.1200(d)(f):

Signal Word:

GHS Class: Not classified as hazardous according to OSHA Hazard Communication Standard, 29 CFR 1910.1200

Hazard Statements: None. Precautionary Statements: None.

Hazards not otherwise classified that have been identified during the classification process:

Not applicable.

Route of Exposure: Eyes. Skin. Inhalation. Ingestion.

Potential Health Effects:

Eye: May cause imitation. Skin: May cause irritation.

Inhalation: Prolonged or excessive inhalation may cause respiratory tract irritation.

Ingestion: This route of entry is unlikely. If ingested, substance is considered non-toxic.

Target Organs: None generally recognized.

## SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Mixtures:

Chemical Name	CAS#	Ingredient Percent	EC Num.
Hydrocarbon and parrafin waxes	8002-74-2	25 - 30 by weight	
Beeswax	8012-89-3	10 - 20 by weight	
Carnauba wax	8015-86-9	5 - 10 by weight	
Ceresine wax	8001-75-0	10 - 20 by weight	

9000-16-2 1 - 5 by weight Gum Damar

63231-60-7 25 - 30 by weight Hydrocarbonwaxes, microcryst

The remaining components of this product are non-hazardous or are in a small enough quantity as to not meet regulatory thresholds for disclosure.

#### SECTION 4: FIRST AID MEASURES

#### Description of necessary measures:

If symptoms develop. Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Eye Contact:

If symptoms develop. Wash skin with soap and plenty of water. Get medical attention if irritation develops or persists. Skin Contact:

Inhalation: If symptoms persist, call a physician.

Accidental ingestion of this material is unlikely. If this does occur, watch person for several days to Ingestion:

make sure intestinal blockage does not occur.

## SECTION 5: FIRE FIGHTING MEASURES

#### Suitable and unsuitable extinguishing media:

Use dry chemical or foam when fighting fires involving this material. Water mist may be used to cool Sultable Extinguishing Media:

closed containers.

## Special protective equipment and precautions for fire-fighters:

As In any fire, wear Self-Contained Breathing Apparatus (SCBA), MSHA/NIOSH (approved or equivalent) and full protective gear. Protective Equipment:

Evacuate area of unprotected personnel. Use cold water spray to cool fire exposed containers to minimize risk of rupture. Do not enter confined fire space without full protective gear. If possible, Fire Fighting Instructions:

contain fire run-off water.

#### NFPA Ratings:

NEPA Health: 1 NFPA Flammability: 1

NFPA Reactivity:

### SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:

For large spills Evacuate area and keep unnecessary and unprotected personnel from entering the spill Personnel Precautions:

Environmental precautions:

For large spills Avoid runoff into storm sewers, ditches, and waterways. Environmental Precautions:

Methods and materials for containment and deaning up;

For large spills Contain spills with an inert absorbent material such as soil, sand or oil dry. Methods for containment:

Methods for deanun: For large spills Place into a suitable container for disposal.

## SECTION 7: HANDLING and STORAGE

Precautions for safe handling:

Handling: Use with adequate ventilation. Avoid breathing vapor, aerosol or mist.

Hygiene Practices: Wash thoroughly after handling. Avoid contact with eyes.

Special Handling Procedures: Do not re-use empty containers.

Conditions for safe storage, including any incompatibilities:

Store in a cool, dry, well ventilated area away from sources of heat and incompatible materials. Keep Storage:

container tightly closed when not in use.

## SECTION 8: EXPOSURE CONTROLS, PERSONAL PROTECTION

## EXPOSURE GUIDELINES:

Hydrocarbon and parrafin waxes

Guldeline ACGIH:

TLV-TWA: 2 mg/m3

Hydrocarbonwaxes, microcryst:

TLV-TWA: 2 mg/m3

Appropriate engineering controls:

Engineering Controls:

Guideline ACGIH:

No special protective equipment required under normal conditions of use. Use appropriate engineering control such as process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Good general ventilation should be sufficient to control airborne levels. Where such systems are not effective wear suitable personal protective equipment, which performs satisfactorily and meets OSHA or other recognized standards. Consult with local procedures for selection, training, inspection and maintenance of the personal protective equipment.

Individual protection measures:

Eye/Face Protection:

No special protective equipment required under normal conditions of use. If splashes are likely to occur, wear: Chemical splash goggles.

spiasites are likely to occur, wear. Chemical spiasit goggies.

Skin Protection Description: Respiratory Protection: No special protective equipment required under normal conditions of use.

No special protective equipment required under normal conditions of use. No personal respiratory protective equipment normally required. The need for respiratory protection will vary according to the airborne concentrations and environmental conditions (such as in manufacturing).

PPE Pictograms:

#### SECTION 9: PHYSICAL and CHEMICAL PROPERTIES

#### PHYSICAL AND CHEMICAL PROPERTIES:

Physical State:

Wax

Color:

Transparent pink

Odor:

Odorless.

Odor Threshold:

Not applicable.

Boiling Point:

Not applicable.

Melting Point:

Not applicable.

Specific Gravity:

0.90 (Ref: water = 1).

Solubility:

Very soluble.

Vapor Density:

Not determined.

Vapor Pressure:

Not determined.

Percent Volatile:

Not determined.

Evaporation Rate:

Not determined.

pH:

7 - 8

Viscosity:

Not determined.

Coefficient of Water/Oil Distribution:

Not determined.

Flammability:

rianimability

Not determined.

Flash Point:

210 °F (99°C)

Flash Point Method:

Tag Closed Cup (T.C.C)

Lower Flammable/Explosive Limit:

Not determined.

Upper Flammable/Explosive Limit:
Auto Ignition Temperature:

Not determined.

Oxidizing Properties:

Not determined.

VOC Content:

Not applicable.

## SECTION 10: STABILITY and REACTIVITY

Chemical Stability:

Chemical Stability:

Stable under recommended handling and storage conditions.

Possibility of hazardous reactions:

Hazardous Polymerization:

Will not occur.

Conditions To Avoid:

Conditions to Avoid:

Avoid contact with incompatible materials,

Incompatible Materials:

Incompatible Materials:

Strong acids.

## SECTION 11: TOXICOLOGICAL INFORMATION

#### TOXICOLOGICAL INFORMATION:

## Hydrocarbon and parrafin waxes:

Administration into the eye - Rabbit Standard Draize test: 100 mg/24H [Mild] Administration into the eye - Rabbit Standard Draize test: 50 % [Mild] (RTECS) Eye:

Administration onto the skin - Rabbit LD50 - Lethal dose, 50 percent kill: >4000 mg/kg [Details of toxic effects not reported other than lethal dose value] (RTECS) Skin:

#### SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity:

No environmental information found for this product. Ecotoxicity: No environmental information found for this product. Environmental Fate:

SECTION 13: DISPOSAL CONSIDERATIONS

Description of waste:

Dispose of in accordance with Local, State, Federal and Provincial regulations. Waste Disposal:

SECTION 14: TRANSPORT INFORMATION

The data provided in this section is for information only. Please apply the appropriate regulations to Notes 1

properly classify your shipment.

## SECTION 15: REGULATORY INFORMATION

Safety, health and environmental regulations specific for the product:

All the constituents of this product are TSCA listed or exempt from listing. TSCA Inventory Status:

This product does not contain any chemicals which are subject to the reporting requirements of the Superfund Amendments and Reauthorization Act of 1986 (SARA) Title III (40CFR, Part 372). SARA:

The following statement(s) are provided under the California Safe Drinking Water and Toxic California PROP 65:

Enforcement Act of 1986 (Proposition 65): This product does not contain any Proposition 65 chemicals.

Hydrocarbon and parrafin waxes:

TSCA Inventory Status: Listed Canada DSL: Listed

Beeswax:

Listed TSCA Inventory Status: Canada DSL: Listed

Carnauba wax:

TSCA Inventory Status: Listed Canada DSL: Listed

Ceresine wax :

TSCA Inventory Status: Listed Listed Canada DSL:

## SECTION 16: ADDITIONAL INFORMATION

HMIS Health Hazard: HMIS Fire Hazard: 1 HMIS Reactivity:

## HMIS Personal Protection:

Other Information:

HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings are not required on SDSs under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). The customer is responsible for determining the appropriate PPE to be used for the task.

The National Fire Protection Association (NPPA) rating system is based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. NPPA hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. NPPA hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. The NFPA system is intended to be interpreted and applied only by properly trained individuals to identify fire, health, and reactivity hazards of chemicals. The user is referred to certain limited number of chemicals with recommended classifications in NFPA 49 and NFPA 325, which would be used as a guideline only. Whether the chemicals are classified by NFPA or not, anyone using the 704 systems to classify chemicals does so at their own risk.
